

TECHNICAL INFO

Style 2025/9957 is a glass lagging fabric designed to replace asbestos. It is used for removable blankets, pipe wrapping, turbine blankets, fitting, flange covers and engine exhaust pipes.

The cloth has been treated so that a large percentage of organic binders on the fabric have been removed. This enhances the hand and weave setting characteristics. Style 2025/9957 is available in red, indicating that it does not contain asbestos.

Specifications:

Weight (o.s.y.): 18.5

Thickness: .030"

Thread count: 20 x 14

Tensile-warp: 200

Tensile-fill: 100

Weave: Plain

This style is designed for continuous use at room temperature up to 1,000°F.
