FIBERGLASS ROPE, TUBING AND TADPOLE TAPE

Glass products used as thermal insulation on tubing for personnel protection and gasketing for applications up to 1,000° F. The heavy wall construction provides greater insulating value and better hot splash protection.

SPECIFICATIONS

ROPE	Low density and High density – braided From 1/8” diameter to 1-1/2” diameter
TUBING	Wall thickness – 1/16” Inside diameter from 3/8” to 3” 100’ rolls
TADPOLE TAPES	from 1” overall to 2-1/2” overall Bulb diameters from 3/8” to 1”

Continuous protection to 1,000° F. 100% texturized fiberglass. Abrasion-resistant.
Chemical resistant.
